### **Functions and duties of public authority (general):**

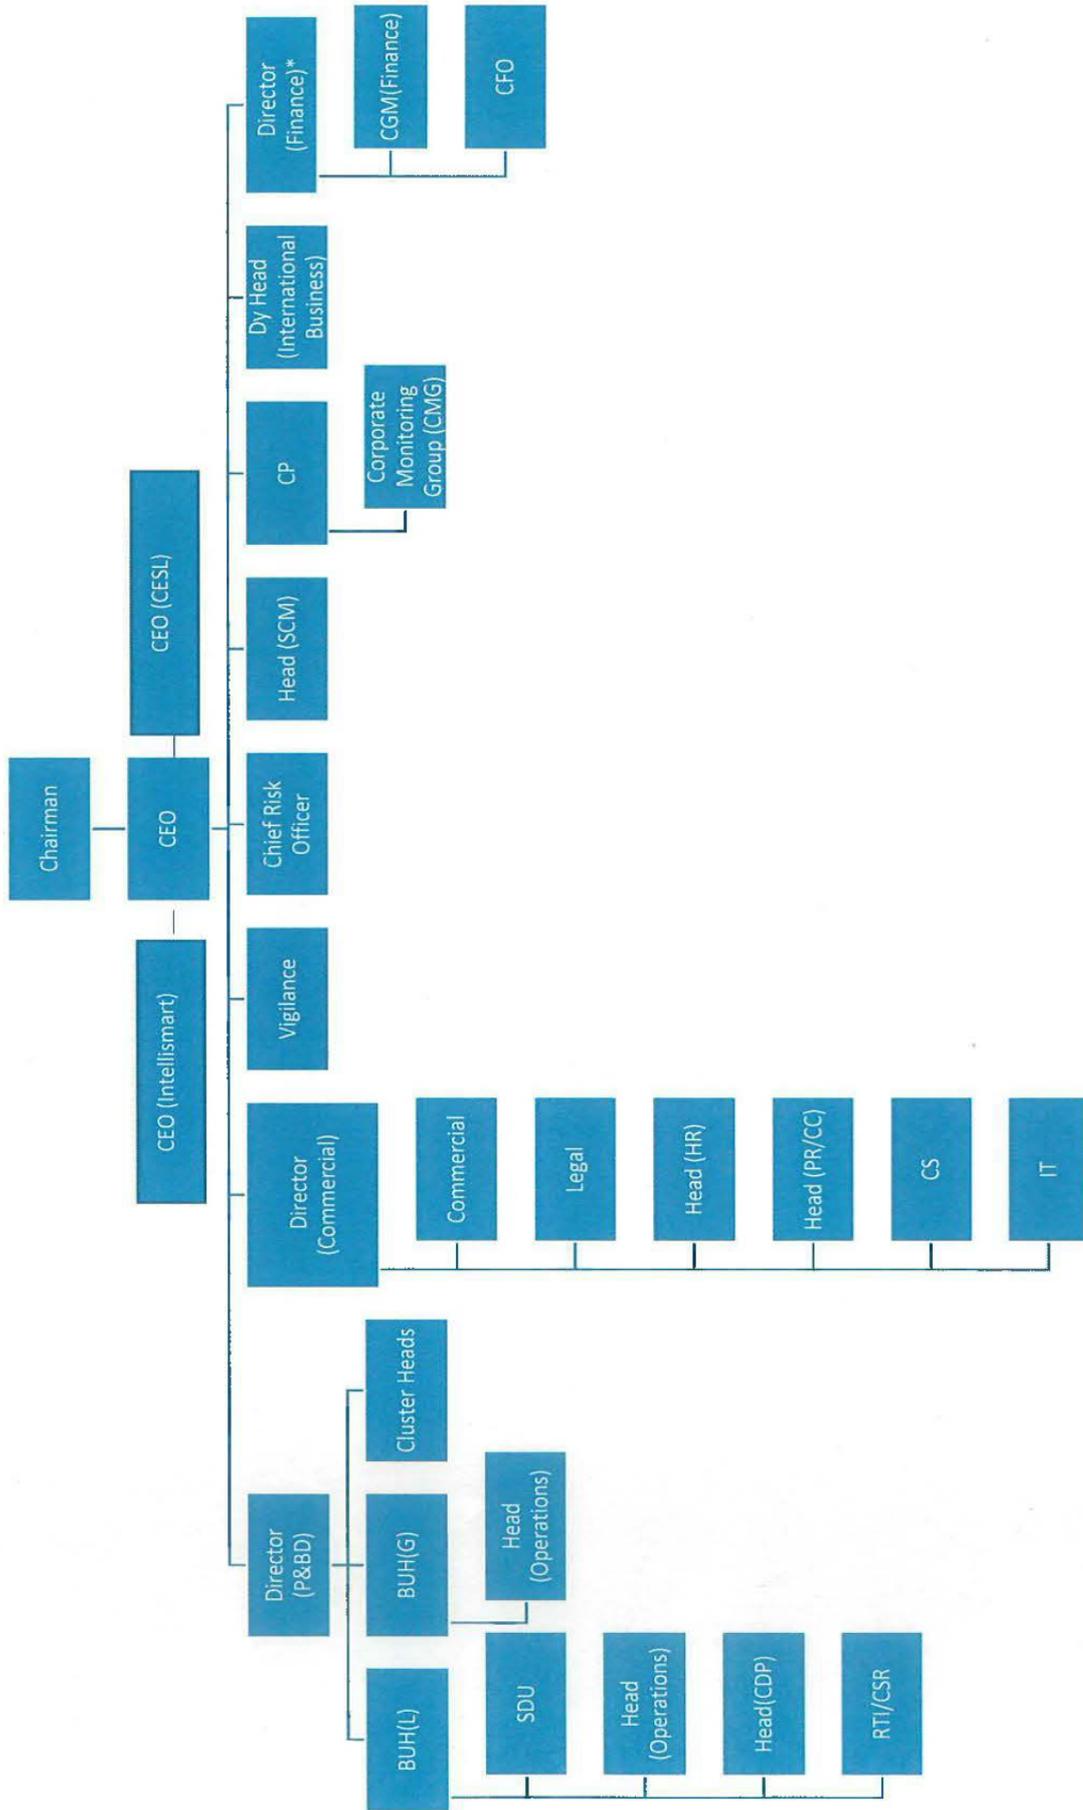

In general terms, Energy Efficiency Services Limited was formed with the idea of promoting energy efficiency across the country. EESL is based on a fundamental premise that a unit of electricity saved is much cheaper than generating it in the first place. All the functions and duties of this public authority are based on this fundamental.

The public authority has a duty to make available energy-efficient schemes and methodologies, which can be easily adopted by the general public, Governments or corporate houses to enhance and reduce their electrical consumption. Energy Efficiency Services Limited functions as an arm of the Government, helping to build capacity to convert energy-efficient possibilities into commercially viable solutions.
