## ADMISSION NOTICE

### ONE YEAR POST GRADUATE DIPLOMA COURSES (Winter Session 2021) IN

- (1) Power Plant Engineering
- (2) Smart Grid Technologies
- (3) Power System Operation
- (4) Renewable Energy & Grid Interface Technologies
- (5) Energy Market Management

**WHY SHOULD YOU JOIN?** With a view to build adequate technical capacity and develop economically viable Energy sector and energy efficient systems and compliance of laudable objectives of the Govt, adequate scientific and technical manpower at all levels is a pre-requisite. The main aim of the courses is to create a pool of technically trained manpower readily available for recruitment to the State, Central and Private Power Utilities and allied Industries. It was felt that requirement of trained manpower for Power Sector could be fulfilled if the engineers after passing their engineering degree are groomed by conducting a technical course approved by the competent authority of Government of India and giving them an exposure to the theoretical as well as practical aspects.

**ABOUT THE COURSE:** Duration of the course is one year consisting of two semesters covering formal training at Institutes and industrial/field training. Course Details are given in prospectus. NPTI has now re-designed the course contents to suit the needs of the Power Sector. The course profile covers the emerging Power Sector needs. Product of the course has promising record of employment in the power industry.
